

JUDGE

Dissolves Injunction Against
Wabash Employees

Judge Adams First Analyzed The
Bill of Complaint

Upon Which the Provisional Restraining Order Was
Issued Charging Defendants With Unlawful,
Malicious Conspiracy.

St. Louis, April 1—Judge Adams today dissolved the temporary injunction restraining the Wabash employees from going on a strike.

The judge first analyzed the bill of complaint upon which the provisional restraining order was issued, charging that the defendants had entered into an unlawful and malicious conspiracy to secure recognition of their brotherhoods by falsely representing that the employees of the railroad who were members of the brotherhoods were dissatisfied with their wages and conditions of service when they were in fact entirely satisfied and contented with the same; that defendants were about to exercise their powers as supreme and controlling officers of the brotherhoods of firemen and trainmen to force an undesired strike upon the men, who were members of their organizations; that defendants threatened and were about to further enforce their demands to execute their conspiracy preventing the railroad from perfecting its duties, as carrier of interstate commerce and mails of the United States, by preventing their members who were working for connecting lines from handling the traffic of the railroad and thus preventing such connecting lines from interchanging traffic with and affording the Wabash the facilities therefor required by the interstate commerce act.

The gist of the conspiracy coming within the jurisdiction of the federal courts was to precipitate a strike undesired by the men and thereby, and by other means, to interfere with interstate commerce and the mail service of the United States.

Upon the showing made that the first step of the conspiracy, namely, the ordering of such strike, was immediately contemplated by the defendants and that irreparable damage would necessarily befall the railroad, unless a restraining order was forthwith issued, the same was done for the purpose of holding the property and the parties in statu quo until both sides could be fully heard on the motion to set aside or modify the order.

Judge Adams declared that his reason for dissolving the injunction was that the railway's bill of complaint that the employees were satisfied with their wages and that they had been led to vote for a strike by labor leaders, was not supported by the facts.

One hundred pressed steel cars are to be delivered to the Pennsylvania railway company every day during the current half year.

HORROR GROWS

Six are Now Dead and Ten Are Believed to Have
Been Fatally Hurt as Results of the Accident in Steel Mill.

Pittsburg, April 1—The accident at Furnace 1 of the Edgar Thompson plant of the Carnegie Steel company at Braddock, an account of which was wired the Advocate yesterday, is expected to prove one of the worst in the history of the plant in the number of deaths resulting. The death list has been increased from three to six.

Twenty men were injured, six of whom are dead, and ten at the hospital are not expected to recover. The other injured went to their homes and are suffering from painful burns.

The dead:
JOHN SMITH.
JOHN BOLO.
ANDREW BRAHA.
JOSEPH PELAR.
JOHN SOTAK.
JOHN PELAR.

The seriously injured are:
George Kodok, Michael Stevoka, Michael Skunder, Andrew Berrits, Joseph Bobon, Frank Sebula, J. Sebula, Michael Miller and Joseph Bubelena.

The accident was caused by a "hang" in the furnace dropping and forcing large quantities of white hot dust down a large pipe into a pit where the men were at work. The victims were caught like rats in a trap without means of escape, and all were burned and blistered over their entire bodies. The cries of agony of the victims as they writhed in the lava-like stuff from which they were vainly trying to extricate themselves, could be heard for nearly a block away.

Hundreds of workmen from other portions of the plant rushed to the rescue of their fellows, and as quickly as possible pulled them from the pit and carried them to the emergency hospital. Seven of the men were completely nude when their bodies reached the hospital, and the others had but a few shreds of clothing upon them. The bodies of the fatally burned could hardly be recognized as such. They were blackened or shredded in strips by the white "downcomer" dust that burned into their flesh. Many of the men had large blotches burned through the flesh, caused by large splashes of molten iron that had struck them and burned through to the bone.

James Garley now First Vice president of the United States Steel Corporation, while General Manager of the Edgar Thomson Steel Works and Blast Furnaces at Braddock said on an occasion somewhat similar to that of yesterday, if a furnace was working well and making regular casts there was no blast furnace man in the country who could tell whether that furnace would hang and cause an explosion. He said that if any invention could be brought forward that could forecast "hanging" it would be the greatest invention in blast furnace history, and would save many lives as well as much loss to blast furnace corporations.

Oaxaca, Mexico, April 1—The peons of Southern Mexico, along the line of the Mexican Southern from the city of Puebla to this city, and in the villages and cities which are scattered along the Mexican Inter-Oceanic and the Mexican Central Railroads, as well as those residing in the historic hamlet of Mitla, are singing the praises of John D. Rockefeller, Jr. for they are in the enjoyment of such golden wealth as they never dreamed would come to them.

All this is due to the prodigal hand with which Mr. Rockefeller and his wife scattered gold coins of the United States and Mexico on their journey through this republic.

The wealthy visitors are still in this country sight seeing, and wherever they go a trail of gold is left behind them which is as bewildering to the average poor Mexican as the mysteries of Paradise itself.

When Mr. Rockefeller arrived at Juarez, on the Rio Grande, nearly a month ago, and started on his trip he provided himself with several sacks of silver pesos. These coins he distributed with liberal hand among the crowd of beggars and peons who were gathered at every station between El Paso and Chihuahua.

The sacks were soon exhausted, and the denominated of \$5 and \$10, and a few of higher denomination which were to be given to exceptional cases of needy persons.

These sacks were stored in the palatial private car in which they travel and the trip was begun.

It was one of the most marvelous trips ever made in this part of Mexico by an American tourist. From the time the party left the City of Mexico until they reached here the throngs of peons and beggars at the stations were treated to the welcome sensation of receiving a shower of gold.

Mr. and Mrs. Rockefeller made the trip in a leisurely way, and at a number of places they stopped and made personal investigations of unusual cases of suffering and destitution. They went into the huts of the poor Indians, and bestowed alms with a tenderness that called upon their heads showers of blessings from the devout Mexicans.

At Mitla, where hosts of beggars congregated to pay up in the generosity of visiting American tourists, nearly every mendicant was made happy with the presentation of gold coins. Never before in the history of Mexico has there been so much gold in circulation in this part of the country.

Mr. and Mrs. Rockefeller will long be known among the poor peons of Mexico as the "Bueno Americanos."

SKELETON

DESPERADOES

Plowed up by an Illinois Farmer Near
Sullivan, Ind.—Mystery of 40
Years Cleared.

Sullivan, Ind., April 1—While Lewis Billingsley was plowing on a farm just across the state line in Illinois, his horse's foot sank into what appeared to be a hole about two feet deep. Digging into the opening he discovered a woman's skull, with a double plait of hair. Digging further into the hole the entire skeleton was found. The remains have been identified as those of Sallie Little, a woman who mysteriously disappeared nearly 40 years ago. She was the mistress of a desperado named Stewart, who lived in the Wabash Bottoms, west of this city. The woman kept house for him.

One night two of Stewart's accomplices in crime, named Hutchins and Carver, called at Stewart's home. The woman came to the door. They had mistrusted Stewart, and as soon as he appeared he was shot to death. The woman was the chief witness against them. Two days after the murder she mysteriously disappeared.

Many citizens believed that she had been murdered by a horse thief named Paul Lindsay, who lived on a lonely island in the Wabash, opposite Merom, this county. A few years after the disappearance of the woman Lindsay was shot to death by Sullivan county mob and his remains were supposed to have sunk in the Wabash. Hutchins was tried on the charge of committing the crime, and after a long litigation was released. Carver was sent to the penitentiary for life. Hutchins died about 30 years ago, and confessed on his deathbed that he fired the bullet that killed Stewart. Carver was finally pardoned after serving 20 years of his sentence. He died in the Soldiers' Home in Leavenworth about eight months ago. The accomplices in the crime have passed away before the discovery yesterday, which closes the last chapter in one of the mysterious tragedies of Indiana.

Ind., April 1—The old agreement between the bituminous operators of nearly 20 states, which expired March 31, 1902, continues in Tennessee, several other Western states until June or July. Ohio, Iowa, Kentucky, and other states, where the operators have agreed, based on the action of the convention, to be in effect. It is possible that an agreement will be reached in Kentucky.

Figures show that the bituminous miners, as a result of national and state conventions, will this year receive an aggregate increase of \$19,437,000 in wages over last year. This is based on the output of last year.

It is probable the amount will be even more, as the production is likely to be greater.

Including the advance received by the anthracite men, the total increase received by miners will be about \$27,000,000 this year.

Terra Haute, Ind., April 1—The wage committee of the Indiana miners and operators had a further conference and it is possible that the vote to strike taken Monday evening may be reconsidered. The miners claim that the operators have violated the agreement of Indianapolis, in regard to expert shot fires. At the conference that morning it was agreed to refer the question to President Mitchell of the United Mine Workers of America and Walter S. Bogo, the Chicago operator.

Columbus, Ohio, April 1—Six hundred brewery workers employed by three brewing companies of this city, went on strike this morning. A reduction of hours from 9 to 8 per day, at practically the old wages and the right of the union to be the judge of competency of employees are the two chief points of difference. The brewery workers' union also wants control over the engineers and firemen, while the employers insist on dealing only with the American Federation of Labor with regard to the engineers and firemen. The Columbus Brewing Company alone is out of the fight, it having signed an agreement with the union.

THREE THOUSAND OUT

Chicago, April 1—Three thousand tanners and carriers went on a strike here this morning for recognition of their nine hour day and a ten per cent. increase in wages.

TIE UP COMPLETE.

Chicago, April 1—The tie up of vessels here operated by the Lake Carriers Association is complete here this morning, practically every member of the marine firemen, oilers and water tenders association having quit work as soon as port was reached. The owners are unable to secure new hands and the strikers are confident that their demands will be acceded to as soon as navigation is on in full.

MINERS IDLE.

Bridgeport, O., April 1—Twelve thousand miners in eastern Ohio are idle today and are celebrating the anniversary of the eight hour day. Celebrations are being held in half a dozen mining towns near this city. All the important employees in the building trades here signed the union scale this morning.

STRIKE INAUGURATED.

Wheeling, W. Va., April 1—A strike was inaugurated this morning by the painters, carpenters, tin and slate roofers of Wheeling Martins Ferry, Bellaire, and Bridgeport, the contention being generally an eight hour day but all these building trades ask for advanced wages also. The contracting carpenters have conceded the demands of their men employed on outside work.

BANK DIRECTOR

Agree to Pay Cashier for Returning \$70,000
He Stole to Avenge Himself for a Slight-
Legal Proceedings--Result.

Berlin, April 1—While the board of directors of the Maynard People's Bank was in session a few days ago, Cashier Herrmann, who had been with the bank for 27 years, told them he had taken \$70,000 of the bank's funds. The amazed directors, when they were really convinced that this was true and that the old employee had suddenly gone mad, a ked him who he had robbed the bank.

Herrmann replied: "This is my revenge for not having been elected a director in 1894 as it was promised." The directors said this was not fair. The cashier added that he was willing to go to the penitentiary for life as he had "got even by inflicting life on the directors and stockholders."

His officers, dropped the high tone which they had at first assumed toward Herrmann, began to restore the money and retain the cash.

Herrmann slowly yielded to the say that if they would give him \$70,000 down and a life pension of \$200 a week he would return the stolen money. It was daylight when the directors promised to give the cashier \$25,000 and a pension.

Herrmann then went to the outside office, brought in \$70,000 counted out \$67,750, and put \$2,250 in his pocket. The directors said this was not fair. That he must return all the money and that he would receive the \$2,250 promised.

Herrmann, however, refused and the bank has now sought legal proceedings to recover the \$67,750.

JUST one taste of Hagee's Cordial of Cod Liver Oil (with Hypophosphites) will dispel any idea that it is repulsive, nauseating like ordinary cod liver oil.

Those who have been deprived of testing its remarkable reconstructive qualities because they imagined it the greasy, fishy kind, could never be more mistaken.

Hagee's Cordial is a thin palatable fluid, with a pleasant odor and agreeable taste. Children take it readily and it agrees with the most delicate stomach. For thin, emaciated, weak conditions of adults, children or infants, its bracing, tonic effect is marvelous.

If this is not true, it is still true in another sense that the way to a man's heart is through his stomach. Many persons imagine that they have heart disease when it is only indigestion.

This is how it comes about. The stomach distended by gas, crowds the heart and gives the feeling that the trouble is in the heart.

PLEA

For Votes for Two Women Candidates for Members of the Board of Education

(Communicated.)

As Mrs. Watkins who has worked so faithfully and efficiently on the school board for the past seven years, now desires a re-nomination, she, with many others, would like to see Mrs. Helen Rose and Mrs. Kate Hines fill the vacancy. To those who know these ladies, they need no introduction, but to the new comers we would say that Mrs. Rose was matron in the D. D. Institution for twenty years. Teachers and superintendent many times sought and heeded her counsel and at times she acted in place of superintendent while the children looked to her as to a mother, for help on all occasions.

Mrs. Hines is a graduate of Shepardsburg College, and was a teacher in the public schools for many years.

We are fortunate in the selection of these ladies, and hope that the voters of these ladies, and hope that the voters on Monday, April 6, will see to it that their votes go in the right direction, and that these ladies are elected. Especially do we hope to see the women of the village turn out and realize what it is to vote for those they like to see in office.

GRAVE ROBBERS

At Mr. O'Hare's Grave in Mt. Calvary Cemetery Tuesday Night, But Superintendent Slate Was Too Vigilant for Them.

What was undoubtedly an attempt at grave robbing, was frustrated on Tuesday night by the vigilance and prompt action of Benjamin R. Slate, the superintendent of Mt. Calvary cemetery.

About 8:30 o'clock Mr. Slate had occasion to go to the back yard adjoining the cemetery and heard a whispered conversation. He distinguished the words: "Listen, somebody is coming." He then noticed a white horse drawing a spring wagon pass along the road near him. Thinking that all was not right he went to the house, and told Mr. Clay Gault, who was spending the evening there, of his sus-

pitions, and together they went out into the cemetery.

They noticed two men standing near the newly made grave of Thomas O'Hare, and when they were asked what they wanted, took to their heels. Slate shot at them but his bullet went wild.

Returning to the house he notified Mr. Frank Bader by phone, and the latter secured Sheriff Anderson. They went to the cemetery with several others and found that Mr. O'Hare's grave had not been touched, but the motives of the men could hardly be mistaken.

A watch will be kept on the grave until all danger from ghoulis is past.

It was used to purchase a coat for the girl. The case was the most awful revelation of immoral degeneracy that has ever come before the Zanesville police. The charge against Murphy is criminal assault with consent.

The other two prisoners were arrested by Officer Ziegler and Carroll Wednesday afternoon. They are William Smith, a bar tender of Zanesville, who is married and has two children, and Sadie Roberts, a girl 16 years old, the daughter of respectable parents.

Smith has not been doing much of anything lately, and became enamored of the Roberts girl. They left Zanesville on B. & O. 47 Tuesday night and remained in Newark all night, but it cannot be learned where. The Roberts girl told Chief Tracey and an Advocate reporter that they came to Newark Wednesday morning, but that official knows they came Tuesday evening.

The three prisoners will be taken to Zanesville on the evening train by Chief Tracey.

Wm. McDonald Dead.

William McDonald, a well known resident of this city, died at his home in "Texas" on Tuesday morning after a brief illness of smallpox. The deceased leaves a widow and one son, who had the disease, but recovered.

NERVOUS HEADACHE

The Cause of Much Suffering to Women Is Permanently Cured When the System Is Built Up by

Dr. A. W. Chase's Nerve Pills

AN NERVE TONIC NEVER EQUALED

ly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, tremble, shaky and utterly worthless for days, it is a sure indication that the nervous system is shattered—that resistive power is gone—that you need a medicine that will rebuild and resupply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is DR. A. W. CHASE'S NERVE PILLS, a medicine that does not re-leave but goes to the root of the trouble and positively cures.

Mrs. Della Kerns of No. 716 Seneca St., Buffalo, N. Y., says: "When I got the box of Dr. A. W. Chase's Nerve Pills I was so nervous I could not keep still, could not sleep and was in a mighty bad state. My head ached hard—those hard, racking, nervous headaches that left me weak and prostrated. I took the box of medicine and since that time have been all right—no headache—no nervousness, feel strong and vigorous and can sleep well again. I am glad indeed to recommend the medicine, as I consider it a safe and certain cure for such troubles. In action it is very pleasant and agreeable and what is more, devoid of all the unpleasant effects of the usual headache preparations. It certainly is a grand medicine."

BEWARE OF IMITATIONS—Signature and portrait of Dr. A. W. Chase on each box of the genuine. For sale by dealers, 50c. a box, or Dr. A. W. Chase Medicine Co., 257 Washington St., Buffalo, N. Y.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness. Soon disappear when the kidneys are out of order or clogged.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage of urine, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be toward the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonials received from sufferers cured. MRS. IDA McDONALD,

Supreme Deputy of the Maccabees of the World.

MRS. McDONALD, No. 477 Beaubien Street, Detroit, Mich., is a prominent woman who was greatly benefited by the great woman's medicine, Wine of Cardui. Mrs. McDonald is the supreme deputy of the Maccabees of the World, and one of the most widely known women in the United States. Thousands of women gather to hear her lecture everywhere she goes. Her great work she has done for the Maccabees is appreciated by every member of the order. She was so absorbed in her work that she neglected to give her health proper care—failed to take warning that the symptoms of approaching kidney trouble gave her, the sallow complexion and torpid liver. But Wine of Cardui cured her the same as it has cured thousands of others and Mrs. McDonald has written this letter in order that other suffering women may secure from Wine of Cardui the same relief she got from it.

Mrs. Ida McDonald.

that I must do something to regain my health. A friend advocated your Wine of Cardui treatment so strongly that I decided to try it, although I had little faith in patent medicines. I am now very thankful that I did so, for within ten days blessed relief came to me, and in less than three months I was cured, and have enjoyed fine health ever since. I know there is nothing better for a sick woman who wishes to enjoy perfect health and am very pleased to give my hearty endorsement.

No suffering woman can afford to ignore such a letter as Mrs. McDonald writes. Her plans and advice have proved valuable in building up one of the greatest women's organizations in the United States and she takes time to give advice which she knows will help you.

Do not delay in securing this medicine. There is nothing to gain and everything to lose by delay. The choice is before you. Will or will you not secure relief now by taking Wine of Cardui? All druggists sell \$1.00 bottles of Wine of Cardui as well as 25c packages of Theodor's Black-Draught.

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

Do you know that the total value of eggs produced in this country last year almost equaled the value of the wheat crop? Seems hard to believe, but that is what statistics show. Even then it was necessary to import eggs to supply the home demand.

YOUNG CORBETT WON.

He Put McGovern Out the Second Time in The Eleventh Round—It Was a Fast Fight And The Better Man Won.

San Francisco, April 1.—Despite the roars of the McGovern people and the yells of "robbery," the fight "fans" went to bed thoroughly convinced that "Young Corbett" won last night's featherweight championship battle on his merits. None save a few disappointed bettors and the McGovern party objected to the decision. McGovern is heartbroken and following his outburst of rage over the decision, wept like a child. Corbett took the decision as a matter of fact and did not allow his victory to disturb his usual calm demeanor. The fight as it went, was one of the greatest ever held in a California ring.

It developed this morning that Corbett and McGovern had a row in the dressing room after the fight. Police were called on to prevent trouble. McGovern approached Corbett and told him heatedly that he had won on a fluke. Corbett denied it and replied coolly: "I don't like you and have no sympathy for you."

McGovern, white with rage, his fists clenched, said: "I'll fight you any time, winner take all." Corbett, with a tantalizing smile on his face, declared that he would accept. Friends and police then interfered.

Those who played the Advocate's tip on the Corbett-McGovern championship battle at San Francisco Tuesday night, are today wearing smiles of satisfaction. The battle was the fastest ever fought between men of the weight, and there was not an idle moment from the time the men came smiling to the center of the ring, until the 11th round, when McGovern, defeated, but not disgraced, was dragged to his corner, and the tradition of the prize ring remained unbroken—No man has ever lost a championship—and in a subsequent meeting with the same man won it back, and McGovern was no exception to the rule.

The fight was carried out to the letter as the Advocate predicted. Corbett beat McGovern at any style he adopted. He bested him at long range, was his superior in in fighting and even at the slugging game he had it on the Brooklyn Terror. He was only in distress twice, in the 5th round and the 10th, but not so much as to leave any doubt as to the ultimate outcome.

The champion knocked McGovern down in the first round, soon after the clock opened, and again in the second round Terry was sent to the floor both times from a right to the jaw, and each time for a count of seven. At other times Corbett had his opponent going.

The following is the Associated Press account of the first two and last rounds, the others being a repetition of the fast work started in the first two, Corbett having the best of it all the way, except a shade in the 5th and 10th.

Round 1—Both came quickly from the corners to the center. Corbett put left to head. Terry bored in with left to ribs and got away from a left jab. McGovern ducked a left but a moment later got a right on jaw and went down for a seven second count. He was evidently groggy when he got up and Corbett put three lefts to the nose. McGovern rushed desperately and swinging his right opened a cut over Corbett's eye. The men fought furiously in the clinch. As Grancy broke them McGovern sank his right in Corbett's ribs. Corbett retaliated with two lefts to the jaw. McGovern put his left to the ear as the gong sounded. McGovern recovered very quickly from his knock down, his good condition being apparent.

Round 2—McGovern rushed like a wild bull. In an instant Corbett's eye was opened but Corbett put right upper cut twice to Terry's chin. The blows were so fast it was hard to keep track of them. They exchanged rights to jaw. McGovern put left to nose and got right to ear. McGovern blocked right hook and put right to ear. McGovern slammed right left and right to stomach and Corbett was groggy. As they came together again Corbett put right to jaw and McGovern went down and half way through the ropes for a seven count. Corbett rushed at McGovern got up and put left and right to the head. McGovern swung right to head. Both showed effects of furious milling as they took corners.

Round 11—The men went into a clinch immediately. Corbett missed a left hook and got a hard left on ear. He uppercut heavily with right to the stomach. McGovern forced but Corbett ducked his left and sent in a terrific right to ribs and a second later a left to the jaw and left to eye. Corbett rushed and slipped down but got up immediately. McGovern put in right hard to ribs and both men slipped down. Corbett put left on McGovern's jaw and Terry was nearly out. Corbett seeing McGovern's distress rushed and getting McGovern in a neutral corner swung right, left and right to jaw. McGovern's knees wobbled and his head sank. Corbett steadying himself, swung his right squarely on McGovern's jaw and the Brooklyn fighter went squarely on his back, his head striking the floor with a thud. He lifted his head at the count of three, turned over and looked at the time keeper, his eyes glassy and rolling; as the time keeper called seven he tried to get on his feet, but was unable. Just after the timekeeper called ten, McGovern, dazed and clearly gone, got to his feet. But he was an instant too late. Referee Grancy swung his hand in the air as a signal that the fight was over and that Corbett had retained the championship. In an instant a terrific uproar took place. McGovern's backers, maddened at the sight of their favorite being dragged to his corner a defeated man, swarmed around and into the ring. They were not quicker than the police, however, who put them pell-mell through the ropes. For five minutes the uproar continued. Then the lights were turned down and the crowd fled out.

Eddie Grancy was the referee and was kept busy separating the boys, who frequently clinched. His work gave very general satisfaction. Although McGovern was favorite with many Newark sports, they did not support their man with their money to any great extent, here being no large bets made on the outcome. Barney Byrnes who saw both men work was an enthusiastic Corbett admirer and placed a few dollars on the Denver boy, as well as advising his friends to do the same.

Why Not "Go Tourist?"

It is the sensible way to go to California—much less expensive than traveling in a standard sleeper, and almost as comfortable.

But be sure you go the right way—via the El Paso-Rock Island route. It is the quickest tourist car line to Southern California. Only three days Chicago to Los Angeles.

Cars leave Chicago daily. The Wednesday and Friday cars are "personally conducted"—that is, they are in charge of experienced excursion conductors, who relieve you of all bother about tickets and baggage.

Another good route to California is via Colorado Springs and Salt Lake City. Tuesdays and Thursdays are the days cars leave Chicago for San Francisco and Los Angeles. Folder giving full information furnished on request.

Newark, Ohio, April 1, 1903

Dear Madam—Will you please ask to see the new silk? It is Antherea, the queen of Silk Linings. It is especially intended for Drop Skirts. It is all silk and won't cut. It wears like iron and is proof against tearing—try it. It has been called Antherea the Beautiful and Good, on account of its high sheen and serviceableness. We have placed an entire line of colors on sale in the lining department and the little price for this fine quality makes it at least one-third under the price of Taffetas. It has the rustle and won't cut. The price is only 58c. a yard.

Yama Mai is the sister lining of Antherea—it is lighter. It is all silk—and only 39c. a yard.

The Summer Dress Goods in beautiful fabrics are now all in, and include silk combinations of endless kinds in all colors—Silk Grenadines, Silk Mulls, Silk Tussars, Silk Gingham, Silk de Soies, at prices ranging from 35c to 50c a yard.

This will interest Corset buyers. Our corset fitter has just returned from the W. B. Specialty Corset Store, where she has perfected herself in corset fitting. We have fitted heretofore on a smaller scale, but from now on we expect to give this feature more prominence, and give the Newark women this advantage of having their corsets fitted free of charge. We can give you the style you require.

The C. B. Corset Display is being shown in our windows this week. If you look at this you will see the New Corsets with the Hose Supporters attached to them on the front and sides, also the new long hip effects. The two weeks before Easter are the big corset weeks of the year.

We would be pleased to see you and get your opinion of Antherea, and oblige
